

# プロジェクトチーム(ノリ養殖に関する研究チーム)

先端技術を用いてノリ色落ち機構を解明し、ノリ養殖漁業の振興を図るため、瀬戸内海区水産研究所、大学、関係県と共同して調査・研究を実施している。

**Project Team (Clarifying the cause of poor harvest of nori seaweed and leading fishermen with the guidance for taking countermeasures against that phenomenon)**

The investigation and research activities are carried out by making the most of newly advanced technologies for the purpose of clarifying the process of discoloration of nori seaweed and promoting the development of nori seaweed culture in cooperation with FEIS (National Research Institute of Fisheries and Environment of Inland Sea), universities and other prefectures concerned.
